

September 2017

Dear Parents and Carers

Maths Parent Sessions

Ever wondered how we teach the basic skills to your children? Are you confused by our weird and wonderful methods? If yes then please come along to our maths parent sessions.

We are going to run sessions this half term showing you the various methods in which we teach basic number skills so that you can support your child at home. We are going to run the sessions on **Wednesday 20th September from 3.30pm – 4.30pm** and **Wednesday 27th September 4.30pm-5.30pm**. The sessions will be held in Y25 which is located in the 6th form area. Spaces will be limited to 25 parents per session. If there is demand for more sessions then more will be available later in the term.

If you are interested in attending please follow the links and book yourselves a place and keep a note of the order number.

Please also return the reply slip with your confirmation number via your child to Mrs Schiavo-Tench in B19.

We look forward to working with you.

Yours sincerely

Lisa Schiavo-Tench
Phase 1 Maths Coordinator
